Tony Seruga Anthony Seruga

Executive at Google
New York, New York, United States

Summary

Tony Seruga Anthony Seruga enjoyed speaking at business and marketing events all over the world, his real passion is to empower entrepreneurs and business owners to create massive success. Tony loves to help people to understand specifically what it takes to build a successful business. He has a very successful background in venture capital, investing and marketing. He has spent two decades working with start-ups to major global brands increasing sales, productivity and overall success and is an innovator with a remarkable ability to determine and dictate success strategies that enable companies to seize global market opportunities.
For everyone that either wishes to start their own business, currently owns a business or would like to capitalize the entrepreneurial dream, Tony Seruga’s message will enlighten them with knowledge and actionable principles to turn that passion into success. Tony has an extensive background in starting businesses, commercial real estate development and building companies around the world. Over the past two decades, he has specialized in helping companies launch, grow and create exponential valuation in the marketplace.
